The William C. Demetree, Jr., Foundation, has committed \$500,000 to a match challenge — meeting your gift dollar-for-dollar to support Boys Town Central Florida's life-changing programs!

Join the challenge today so at-risk children and families throughout Central Florida will always have the programs and services they need when they're struggling, hurting or needing a helping hand.

Your generous support will strengthen and expand existing Boys Town services, including opening a fifth residential home that will increase the Boys Town Family Home Program's ability to serve children between the ages of 10 and 18 who need immediate care and protection. The \$500,000 match challenge also will fund other critical programs for youth and families, including...

- > The **Boys Town Central Florida Behavioral Health Clinic**, which offers a wide range of outpatient services for children of all ages who experience behavioral, emotional, academic or substance abuse issues.
- > **In-Home Family Services**, which keep families intact while making them healthier, happier and safer.
- > **Common Sense Parenting® Classes**, which give moms and dads a boost of confidence while teaching them practical skills for raising responsible children.

The William C. Demetree, Jr. Foundation knows how vital these programs are to the children, families and communities of Central Florida, and that's why they have committed \$500,000.

Your gift can **Double** this pledge. Please donate today.
