

Boys Town License Plate Order FAQs

1. When will the Boys Town license plates be available?

We must have 250 Nebraska residents complete the DMV application and pre-pay \$70 before we can submit them to the state.

Once we have this number, it will be 6-8 weeks before they will be available to you. At the latest, this will be March 2020.

2. Who will be receiving my pre-paid money?

Boys Town must submit one check for the full payment of \$17,500 (250 x \$70) to the state before you can receive your Boys Town license plate.

3. What if Boys Town doesn't get the required 250 applications?

Boys Town's goal is to have all of the applications and money collected by December 31, 2019. If we do not achieve this, your money and application will be returned to you following this date.

4. Does my vehicle have to be titled and registered before I can order a specialty plate?

The vehicle must have a Nebraska title in your name, or the name of the leasing company if the vehicle is a leased vehicle, before you can apply for a specialty plate.

5. Will my specialty plate be mailed directly to me?

No. Once the plates are manufactured they are shipped directly to your County Treasurer's office. To take possession of the specialty plate you must register it to your vehicle.

6. Will I receive two plates?

Two (2) plates are issued for each vehicle unless the vehicle is a motorcycle, mobile home, trailer or minitruck, in which case you will be issued one (1) plate.

7. Can I get a Boys Town license plate for each vehicle I own?

Yes, but you will need to complete an application for each vehicle and pay \$70 per vehicle you wish to register.

8. What do I do with my county plates when I pick up my specialty plates?

You will need to surrender your county plates and registration to your County Treasurer when you register your specialty plates.

9. I paid a fee for my plates when I ordered them. Is it a one-time fee or will I be required to pay it annually?

Specialty plate fees are due at the time of initial application and again each time the vehicle's registration is renewed for as long as you retain the plate. Please note that if you order and register your specialty plates in the middle of your registration period, you will be required to pay the specialty plate fee at initial application and again when you renew the registration on your vehicle.

To avoid paying the specialty plate fee twice in one registration period we suggest that you order your plates approximately one month prior to your vehicle's registration renewal month and register the plates when you renew your registration.

Boys Town is working with the state to avoid this duplication if at all possible.

10. What should I take with me when I visit my County Treasurer's office to pick up my specialty plates?

Bring the approval letter from the DMV, your current plates and registration, current proof of insurance, and an acceptable method of payment for your county. If the specialty plates are picked up in a month other than the month of the vehicle's registration expiration a fee of \$12.10 for a vehicle with two (2) plates and \$8.80 for a vehicle with one (1) plate will be due when replacing your current license plates with your specialty plates.
